226	I wanted to gain weight and exercise which is helpful to my brain	7/11/2024 8:09 PM
227	Indeed, my general health exceeds my expectations for a 40-year-old. With some adjustments to my lifestyle such as, going to bed at an earlier hour, and eating a more modest portion in the evening, I have not had to worry about my weight, ability to lift heavy objects, or stamina to get through the work-ordered day. (My neighbor Mr. Delage once said, 90% of household problems can be solved with WD-40. At 80, he's still working on his own roof, even in wintertime.) I think faith in my own recovery plays a major part, and I'm lucky to be included in an environment where "health is the only currency." I have kept my wisdom teeth and I think that incurring three fillings is a small price to pay! The list goes on.	7/11/2024 4:29 PM

7	I've only been attending for about a month now. I go for about half of the week and I try to catch the morning meetings or catch up when I can. I don't personally socialize much; I generally work better alone. But it is nice to get out of the house and feel productive, and I am starting to learn how to work a bit better in a team environment. They tell me that I have the freedom to come and go as I please and, so far, they've held to that standard which I appreciate. I do find it personally rewarding when I learn new skills and talents to take with me into my future. I have been happy with my experience as a member so far, and I have very high regard for the work being done for and with the community.	8/26/2024 3:41 PM

40	My experience with the GOC has been up and down. I've been a member for over 11 years and have seen the GOC struggle through growth and changes. But, through all the trials and drama, the GOC is still here. Overall, it serves the greater good in our community, however Alachua county is ripe for so many more services and non profits. I have learned a lot about mental health and how to live with my illness and better relate to others through orgs like the GOC and NAMI. I hope we can get things going in some of the more rural counties and break barriers like access transportation and such. tc	8/16/2024 12:48 PM

you. I have worked a few T.E.'s that turned out well. I am currently doing another T.E. right now. The only problem is that regular employers do not hire people with medical issues if they can avoid it. But this is not the fault of anyone from Vincent House. It is the fault of hiring managers. Overall, NY experience with Vincent House has been great.

288	Extremely warm, welcoming and friendly environment, I almost couldn't believe it at first. Learning the various skills and working on different projects helped me get my feet back on the ground and re-ground me in reality. The Academy has done so much for me already whether it's the eight dimensions of wellness, various workshops, or getting a job through one of the transitional employment opportunities. They even helped me find a weekly gig to put my newly acquired A/V skills to the test while helping out with live-streaming! Even though I'm confident the Academy will continue to thrive, I want to do whatever I can to help it thrive.	7/12/2024 11:48 AM
289	I'm utilizing the computers for clubhouse reasons. Editing videos as practice for my career.	7/11/2024 8:15 PM
290	For now, it is someplace to be and something to do. A safe haven.	7/11/2024 6:12 PM
291	This clubhouse is a meta-project by our director who already has successfully implemented a functional clubhouse. His broad experience allowed him to (I believe) encourage discipline in those newer members of the clubhouse, like me who stay for more than a year or two. I find there are, as in every organization, problems of responsibility (or boundaries) for any given project. I am afraid that I am using these as an excuse not to find employment locally, for I have not completed the four years necessary to complete an undergraduate degree, yet I have spent five years at this clubhouse, and at the newer, Academy at Bradenton. Once I have spent enough times in the three teams, I find that there is far more work available than I can possibly complete in a day, let alone a week. I have made lifelong friends and learned that "colleague" is a term to trust, it builds character to elevate my thoughts to improve my engagement in work of any kind. I have had an experience of quality available at any clubhouse (through standards and values) as well as some specific quirks of my own clubhouse that have made my life richer and more meaningful.	7/11/2024 4:49 PM
292	I need help getting motivated and feel more included.	7/11/2024 3:53 PM

325	I have not yet sought a job with my Clubhouse, and that is the only reason they haven't helped place me, and that is because I'm still looking to fortify my skills in the job community. I am a member of the Board of Directors as well. I am also working on learning the ins and outs of administration for that type of job as well.	7/8/2024 1:32 PM
